

GEORGIAN AWNING WINDOWS

Lineage Collection - Newport

For awning windows, we recommend the use of wideline sashes in lieu of any standard sashes or fixed lites, to achieve the best look.

Horizontal bars are applied at a set distance from the top of the window, regardless of the sash type, to ensure bar alignment across a whole product. Please consider other nearby products, as they may need to be customised if you wish for all bars to align. Please discuss your specification with an A&L sales representative to ensure your desired aesthetic can be achieved.

DATE OCTOBER 2017	For further product information visit: www.alwindows.com.au
