COLLECTION

Gatsby Series

BOLD ANGLES, SLEEK CHARISMA

The Gatsby series takes its style cues from the Art Deco movement of the mid 1920s, updating the celebrated classic aesthetic for modern homes. Gatsby slightly subdues some of the flamboyance of that famous period, while retaining the sleek sense of luxury that came to define it.

The Gatsby series offers strong geometric lines and bold angles, but is equally suited to understated styling. Distinctive and understated, it is just as at home in a minimalist environment as in tandem with statement pieces of art or furniture. As a result, the Gatsby is a rich and versatile solution for any home or interior.

PLEASE NOTE:

Bars are evenly spaced based on the overall height and width of the product, not the glass area, to ensure bars align across products of the same dimensions regardless of the sash type. Products with a transom are the exception, where by bars are evenly spaced within the glass openings.

Please consider other nearby products, as they may need to be customised if you wish for all bars to align.

Please discuss your specification with an A&L sales representative to ensure your desired aesthetic can be achieved.
