COLLECTION

# Newport Series

## CASUAL ELEGANCE, MUTED TONES

Originally inspired by the affluent coastal villages of New York’s Long Island, the Newport series offers the casual sophistication epitomized by the ‘Hamptons style’. With a segmented grid tastefully overlaid on the top section of the pane, Newport offers an unobstructed view through the majority of the glass. It lets natural light in and captures the spacious ambience of life on the coast—even in the heart of the city.

Newport’s tastefully minimalist style is suited to neutral palettes of soothing grey, navy and duck-egg blue, and can be beautifully offset by warm bursts of timber. It’s classic, casual and effortlessly elegant, and is best paired with similarly timeless pieces, rather than cutting edge modern design elements. Stick with a pared-back aesthetic and bring the relaxed coastal atmosphere of holidays into the home.

### PLEASE NOTE:

Horizontal bars are applied at a set distance from the top of the window, regardless of the sash type, to ensure bar alignment across a whole product. We recommend selecting all Wideline Sashes to achieve the best look.

Please consider other nearby products, as they may need to be customised if you wish for all bars to align. Standard bar positioning on doors differs from windows to allow for the thicker aluminium sections, which take up more of the glass area.

Please discuss your specification with an A&L sales representative to ensure your desired aesthetic can be achieved.

Illustration of a 1372mm high awning window.

# AWNING WINDOWS

## Lineage Collection - Newport

For awning windows, we recommend the use of wideline sashes in lieu of any standard sashes or fixed lites, to achieve the best look.
